Helpful Tips
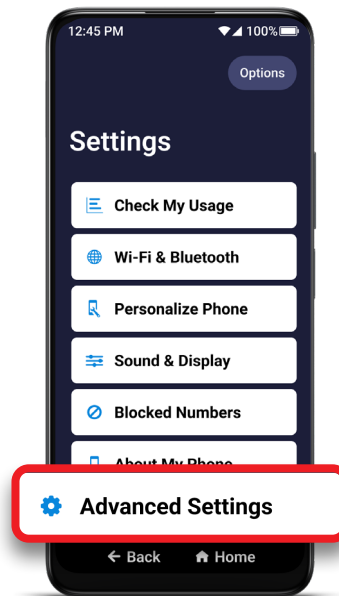

# Turn on Data Saver and reduce data usage

Data Saver will prevent some apps from sending or receiving data in the background, helping to reduce your overall data usage.

**1** Scroll to TAP **Settings** from the home menu.
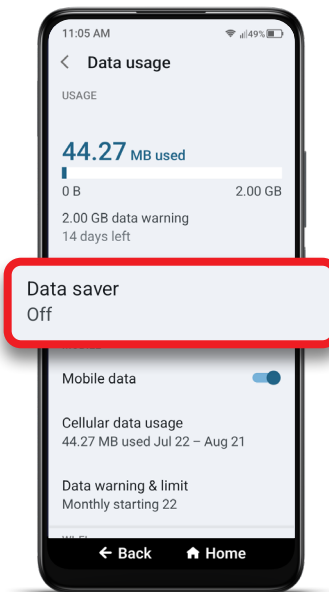

**2** Tap **Advanced Settings**.

3 TAP **Connections**.

Turn on Data Saver and reduce data usage (cont.)

OFF Setting   **ON Setting**

---

4 TAP **Data Usage.**

5 TAP **Data Saver.**

6 Turn on **Use Data Saver.**

Toggle the switch next to Use Data Saver to the ON position.

Check App-Specific Settings: You can customize which apps are restricted by Data Saver by tapping on Allowed to Use Data While Data Saver is On.

Monitoring Data Usage: Regularly check your data usage in the Data Usage menu to ensure you're staying within your data limit.
